

Handmade by Tinni

PAULOMI DEBANTH - FOUNDER & ARTIST

www.handmadebytinni.com

Bold, Beautiful & Sustainable

Handmade by Tinni was founded in 2020 to address the lack of colourful, fun biodegradable jewellery for fashionistas who love expressing their personality with unusual, statement jewellery pieces.

Meet The Artist

Paulomi was born and brought up in India and now lives in London for the past 16 years. She has always been passionate about handcrafted unique jewellery and being an Indian, Paulomi has been spoiled for choice and inspiration.

Her art is heavily influenced by the bright colours of nature, exotic places Paulomi has travelled and the rich Indian heritage and colours.

Paulomi launched the brand in 2020 as a sustainable modern textile design brand that creates unique wearable art. She chose organic cotton as her leading material for her designs as it is biodegradable and extremely flexible to let the designs flow freely.

Specialising in the art of traditional rope knotting crafts and processes like macramé, Paulomi creates colourful, unusual and bold designs that make you feel unique.

By adding zero-waste designs and partnering with Ecologi, Paulomi is making a positive impact with her brand.
